

# CYBERSAFE Early Years

Did you know that the fastest growing segment of internet users are kids ages 5 - 7 years?

With the increasing use of mobile games, learning software and eBook readers, parents and schools are turning to the internet as a teaching tool, with many kids starting as young as preschool.

There are wonderful things to be found on the Internet. Children can learn new languages, research homework, and even learn to read. The early years is the best time to begin to lay the foundation of what safe online behavior is, how to be

a good online citizen, and the differences between the real world and the online world.

The Kidproof Cybersafe Early Years program follows Bob-bee through his first few experiences using the internet and his computer.

Through stories, games and easy to understand key messages, students learn that right and wrong is the same online as it is in person, and about the importance of talking about their experiences online, whether good or bad, to their parents.

The best way to keep children safe is to encourage open lines of communication. Cybersafe Early Years highlights the importance of sharing their feelings and questioning what they see online for its truthfulness.

It is impossible to ignore the internet. Every child and parent must be prepared for this new world, and this course will set the foundation for future success in using technology as a tool to learn, socialize and play.

# Why Kidproof

For a decade, Kidproof has earned the trust of parents and educators to deliver the most current, relevant, affordable and valuable safety education on the planet!

**Join hundreds of thousands of children and register for a Kidproof program today!**

## We make safety fun!

Our safety programs are fun, entertaining, exciting, and developed by leading experts in child and family safety. Make no mistake, we take protecting kids very seriously and our diligence in providing the most accurate information shows through in every course we deliver.

## More than just safety lessons

We believe that kids learn by "doing" and our programs are action packed! Through role play and group activities, Kidproof students learn to develop their critical thinking skills by working through possible scenarios and outcomes.

Every Kidproof program comes with standard student workbooks and materials that support the lessons and provide essential "take-aways" that become a great resource for the whole family! In addition, we have developed corresponding "optional materials" like parent guide books, craft kits, first aid kits, and other goodies that can be added to any class for extra value!

### 1. Select course(s)

### 2. Confirm dates with your local Kidproof Safety Team

### 3. Enjoy the class!

The only thing we ask is that you provide a safe public facility (no private homes) to host the program and organize your group of 10 or more kids. A certified and screened Kidproof instructor will attend your facility on the day of the class with all student materials and ready to teach.

And you only have to pay for students that attend.

If you have to cancel - no problem! With no deposit or cancellation penalties you can be free to cancel a class anytime.

**BECOME  
A CERTIFIED  
TEACHER!**

## Testimonials

**Perth Road PS** "Our student council is considering offering this course on an annual basis."

**Bianca** "I would recommend this course because all people should know what to do if they come across any of the scenarios that we practiced."

**North Norwich Public School** "The course exceeded my expectations, to be honest!"
