

Drugs & Alcohol Awareness Teens

Education Is The Key to Prevention

Many teens experiment with drugs, putting their health and safety at risk — but teen drug abuse isn't inevitable.

Whether it is alcohol, illegal drugs, prescription or even over-the-counter drugs, all of these items can prove damaging and even fatal, to teens who abuse them.

Drug and alcohol use and experimentation increases as kids get older and factors such as insecurity and self-doubt, added to a desire for social

acceptance, can drive teens to take potentially dangerous risks — such as abusing legal or illegal drugs.

This informative program dives deeper into the negative impacts of drug use, and offer solutions and tools that students can use to avoid, and prevent future abuse.

Kidproof Drug and Alcohol Awareness for Teens is written by experts in the field

of drugs, addiction, and child psychology.

It is an interactive program that uses motivational activities, social-skills training and decision-making lessons to help steer kids away from using drugs while promoting healthier activities.

Why Kidproof

For a decade, Kidproof has earned the trust of parents and educators to deliver the most current, relevant, affordable and valuable safety education on the planet!

Join hundreds of thousands of children and register for a Kidproof program today!

We make safety fun!

Our safety programs are fun, entertaining, exciting, and developed by leading experts in child and family safety. Make no mistake, we take protecting kids very seriously and our diligence in providing the most accurate information shows through in every course we deliver.

More than just safety lessons

We believe that kids learn by "doing" and our programs are action packed! Through role play and group activities, Kidproof students learn to develop their critical thinking skills by working through possible scenarios and outcomes.

Every Kidproof program comes with standard student workbooks and materials that support the lessons and provide essential "take-aways" that become a great resource for the whole family! In addition, we have developed corresponding "optional materials" like parent guide books, craft kits, first aid kits, and other goodies that can be added to any class for extra value!

Testimonials

Ronald "My sons was nervous to go to the class today because he did not know anyone. Your instructor was very kind and welcoming. He fit right in and can't stop talking about how great his day was."

Liam "The instructors were very nice and fair with all the kids."

Michelle "Yes I would recommend these classes to my friends because I want them to be safe. Thank you for teaching me to keep safe."

1. Select course(s)

2. Confirm dates with your local Kidproof Safety Team

3. Enjoy the class!

The only thing we ask is that you provide a safe public facility (no private homes) to host the program and organize your group of 10 or more kids. A certified and screened Kidproof instructor will attend your facility on the day of the class with all student materials and ready to teach.

And you only have to pay for students that attend.

If you have to cancel - no problem! With no deposit or cancellation penalties you can be free to cancel a class anytime.
