

I Wanna Walk

Walking is a healthy and environmentally-friendly way for your children to get to school, and with proper preparation it can be safe.

One of the most difficult things for many parents is allowing their children to walk to school on their own. But for many parents, driving their children to and from school each day may not be feasible, and eventually most of us will decide that our kids are mature enough to walk to school or to a friend's house on their own.

The Kidproof I Wanna Walk program is an active workshop that prepares kids ages 8 and up to walk to and from school safely without direct parental supervision.

Kids learn how to safely respond to situations dealing with the three main risks:

- Healthy Living and Lifestyle
- Bullies
- Traffic

Through interactive, non-threatening, and entertaining lessons, kids learn:

- How to plan a safe route to and from school
- Who to go to for help along the route
- The #1 rule to safety
- What to do if approached by a stranger
- How to deal with potential bullies
- What to do if a friend is being bullied along the route
- Pedestrian, bicycle, skateboard, and rollerblade safety
- Plus much more...

2 hours
Recommended for
kids ages 8+

For a child who is capable and mature enough, walking to school can be safe, fun and empowering.

Host Kidproof's I Wanna Walk workshop and help kids learn to make safe choices when walking to or from school unsupervised.

Why Kidproof

For a decade, Kidproof has earned the trust of parents and educators to deliver the most current, relevant, affordable and valuable safety education on the planet!

Join hundreds of thousands of children and register for a Kidproof program today!

We make safety fun!

Our safety programs are fun, entertaining, exciting, and developed by leading experts in child and family safety. Make no mistake, we take protecting kids very seriously and our diligence in providing the most accurate information shows through in every course we deliver.

More than just safety lessons

We believe that kids learn by "doing" and our programs are action packed! Through role play and group activities, Kidproof students learn to develop their critical thinking skills by working through possible scenarios and outcomes.

Every Kidproof program comes with standard student workbooks and materials that support the lessons and provide essential "take-aways" that become a great resource for the whole family! In addition, we have developed corresponding "optional materials" like parent guide books, craft kits, first aid kits, and other goodies that can be added to any class for extra value!

Testimonials

Sharon "I wanted to thank you people for everything that you do to help keep kids safe. It is about time that there was a service like yours! Keep up the great work!"

Michelle "Yes I would recommend these classes to my friends because I want them to be safe. Thank you for teaching me to keep safe."

1. Select course(s)
2. Confirm dates with your local Kidproof Safety Team
3. Enjoy the class!

The only thing we ask is that you provide a safe public facility (no private homes) to host the program and organize your group of 10 or more kids. A certified and screened Kidproof instructor will attend your facility on the day of the class with all student materials and ready to teach.

And you only have to pay for students that attend.

If you have to cancel - no problem! With no deposit or cancellation penalties you can be free to cancel a class anytime.
