

## Testimonials for Kidproof India

### **Neera Chopra- Educational Consultant**

Need for safety education is very important today. Safety education should be conducted on an ongoing basis. During the camp, children were excited on the new learning at Kidproof Safety Camp.

### **Dhan Singh Bhadana- Chairman, Aravali Group of Institutions**

All developed countries focus the most on safety and same has to be done in India. If our children will not feel safe, their confidence will be lost. Confidence is what our children need today, as it fortifies their determination to excel in their lives. It is very necessary that parents, guardians, friends, peers, neighbors, teachers, caretakers and society as a whole becomes an important source of knowledge for a child. These are important initiatives, which Kidproof has taken, as it is informative and should be a continuous practice in schools. Children learn from such initiatives and get inspiration to excel. Such programs are need of the hour for the children in today's testing times.

### **Ms. Nandita Sahu-Principal, Tagore international School-EOK, New Delhi**

I am happy with the safety camp conducted by Kidproof India with my Junior children. Despite the blistering heat, the kids were gainfully engaged and excited to be a part of the Kidproof Safety Camp. The Camp met the expectations of the parents to have taken a step towards equipping them with right knowledge to deal with the dangers in today's times. Safety is a prime concern in an educational institution. As the better half of the child's waking hrs. is spent in a school environment, parents look towards the school as a fulcrum of all activities a child is engaged in for good 14 yrs. Which are also the formative years of a child's life. Therefore it is the responsibility of an educational institution to add value for character development, personality development and holistic development of a child. The best antidote to fear of dangers lurking around is knowledge to be able to deal with them positively. Thanks to Kidproof for making it possible today.

### **Ms. Seema Kaur-Headmistress of DPS Indirapuram**

Kidproof has been an enriching experience for our young campus. They have learnt that life is precious and they need to be safety conscious. I feel that my little babies are confident and ready to face any challenges of life. I would like to show my gratitude to Kidproof team to inculcate this knowledge in this right direction and to organize this Safety Camp so well. It is definitely "a Masti ki pathshala".

### **Harpreet Shah- Director, Anand Niketan School**

Precaution is better than cure and, to be precautionary is the key today. Kidproof has imparted micro level knowledge for all the possible situations a child can be a prey to a predator. A very Participative and interactive approach has imbibed the contrary action a child can take in such scenarios. I really appreciate the way Kidproof has empowered the kids to make safe choices.
