We make safety fun!

Our safety programs are fun, entertaining, exciting, and developed by leading experts in child and family safety. Make no mistake, we take protecting kids very seriously and our diligence in providing the most accurate information shows through in every course we deliver.

More than just safety lessons

We believe that kids learn by "doing" and our programs are action packed! Through role play and group activities, Kidproof students learn to develop their critical thinking skills by working through possible scenarios and outcomes.

Every Kidproof program comes with standard student workbooks and materials that support the lessons and provide essential "take-aways" that become a great resource for the whole family! In addition, we have developed corresponding "optional materials" like parent guide books, craft kits, first aid kits, and other goodies that can be added to any class for extra value!

1. Select course(s)

2. Confirm dates with your local Kidproof Safety Team

3. Enjoy the class!

The only thing we ask is that you provide a safe public facility (no private homes) to host the program and organize your group of 10 or more kids. A certified and screened Kidproof instructor will attend your facility on the day of the class with all student materials and ready to teach.

And you only have to pay for students that attend.

If you have to cancel - no problem! With no deposit or cancellation penalties you can be free to cancel a class anytime.

Testimonials

David "Your instructor was exceptional with our son. He has a slight learning disability but she made him feel comfortable and knew exactly what to do. She even read the test to him!"

Brenda "My daughter and her friend took the babysitting course and can't stop talking about it. They learned a lot of important skills that they are anxious to use. Thanks for coming out to present this great course!"

Bob "I am a firefighter and know a lot about safety. I wanted to let you know that the information that was presented in your babysitting class was fantastic. My daughter and I went over the book and course together. She learned a lot. Thank you for such a great service."

Shirley "I learned something that I didn't know today about E.M.S."
